In the US District Court For the Eastern District of
Virginia Alexandria Division

U S _____ File 20 June 02
v _____ Case No 01-855A
Zacarias Moussawi _____

Re: Zacarias Moussawi Opposition to government appointed lawyer Motion to suppress statement and prints and authenticities in support thereof

ALLAH U AKBAR, the Slave of ALLAH, Zacarias Moussawi strike to oppose the government appointed lawyer motion cited above, that aim to render my statement to government agent (DHS and FBI) unconstitutional and therefore as well ~~the process~~ it will suppress and render unconstitutional the physical evidence seized ~~at~~ before September 11.

These evidence clearly and unequivocally demonstrate that the FBI were engage into an Under cover Surveillance operation against me and therefore to declare them unconstitutional will guaranty my conviction, my Death.

In this motion the government appointed lawyer alleged some "Fact", it is interesting to know and to ask them where and from who they got their so called "Fact"

Not a single witness or testimony or report is mentioned as the basis for this Motion.

It is ~~clear~~ ^{obvious} that this Motion is the sheer result of mere assumption, speculation or probably delusion by the government appointed lawyer.

These government appointed lawyer have and provide no reason why they waited more than a month to introduce such motion. Or it might be related to the information contain in the Report of Doctor Patterson (which is under seal of course) in which I indicate that I can explain September 11 in 15 minutes.

The filing of this government appointed lawyer motion was apparently done on the day of my hearing Jun 13, 2002, in which I openly accuse the FBI of cover up (mentioning different addresses contain in the notebooks seized during my arrest). It will be very interesting to know the precise time of the filing (before or after my accusation of FBI cover up) as one could assume that they will have waited to the last moment possible to be sure that I knew exactly where the proof of the FBI cover up were contain.

To have filed much earlier will have easily expose their current attempt to remove the evidence of the FBI cover up and enable me at the hearing to denounce them.

If the government appointed lawyers were to claim that they have no knowledge that these evidences find ~~some~~ ^{me} with at my arrest could prove an FBI cover up because I did not share information with them.

This claim should be rejected because of the overwhelming nature and simplicity of the evidence make it impossible that these "so called" "experience lawyers" did not understand and knew that they were dealing with an FBI cover up.

Moreover no well intentioned experience lawyer will try to render unconstitutional statement and evidence in such a circumstantial case without having deeply and exhaustively investigate the nature of the statement and evidence, in order to determine if they could be favorable to the defendant.

A simple investigation on

the passport address will have show that it was raided by British SWAT (army police) in the FBI investigation in Britain of the Embassy Bombing in Kenya and Tanzania.

23 A Lambert Road SW2 London

the investigation on the address:

5 Herbert Avenue SW9 London that appears in the notebook found on with my arrest will have shown that British court have engage proceeding against me in 1999 involving the following a bus infraction and I gave this address in London buses. ~~When I~~ I used this address, that was ~~also~~ searched by British Special Branch and KIS because of the supposed link between the occupant and the Chechen Mujahideen. And my will and the will of "Masood" Nyoffa were seized by British Police at this address in 1997.

Further analysis

- the Kuba receipt dated of the 12 August 2001 found with me at my arrest should raised the question why the FBI did not investigate my use of the internet. Not to mention that their ^{did not} colleagues investigate it as well.

- Name and address in Pakistan could and should provide interesting line of investigation at the time of my arrest and briefing for FBI and government lawyers.

- Brother K and Telehan P could provide testimony that I was engaged in a serious discussion in an Hawaaj arrangement a few days before coming to the US and

I visited the sister and the relative in Manchester a few days before and inform them of my intention to go to the US to become a pilot. This might be helpful to prove that I have no intention to "killed" myself.

Cellular smart chip phone used in Escapes British mobile phone. could provide a detail account and history of my telephone call just before coming to the US.

Not to mention that I phone repeatedly an Islamic institution that was deeply investigated by the FBI in the Embassy Basmala in Africa the same institution I stayed in their short stay accommodation just before coming in. These few example which are not only a fraction of evidence found at my arrest and that will establish that the FBI is engaged in a cover up with this appointed lawyer.

Therefore this Motion must be rejected because it is factually baseless and it goes against my most fundamental defended interest. No lawyer should be permitted to surrender unconstitutional evidence or statement that can release a defendant

Hearing must be convened in order that
I can comprehensively expose why this
Motion must be denied.

Slaves of ACCA.
