Zacarias Moussawi v US

SIX MONTH UNDER SIEGE

Motion To access the Underseal, Ex Parte Classified US motion on Ramzi Binalshih.

[Redacted] On Friday 27, September the US government filed an Underseal "Ex Parte" classified reply to my motion requesting access to Ramzi Binalshih before I and for trial.

In this US government reply the prosecution requested a six month continuance of trial in order to "No brief" Ramzi Binalshih and then decide if Ramzi could be produced as a "witness".

Leanne Brumby in her order of the 30 September unshamefully misled the world by saying "the defendant - seeking a

one month continuance of the trial date =>

Whereas in fact I asked for a 2 month continuance -

Moreover Leslie Brennan says:

"The United States joins in the Defendant's request for a continuance."

The United States did not join Brennan's motion. The United States filed a motion for continuance in response of the Order of the Court to reply to my motion on the 09/27/02. ~~to~~ my motion for access to Ramzi Binalsharif because they knew that "it will be the end of the case". Basically if Ramzi Binalsharif testifies he will say to the world that I am not G.I.I.

Therefore the US government needs more time to fabricate a story. (By the way, I know which one, that is to my "classified understanding").

Leslie Brennan must unseal the United States reply of the 27 Sept 02 and give me a copy.

I have a "constitutional" right to know about the case.

Therefore the U.S. reply must be
given to the public so they could
understand how their government
is trying to murder me despite
knowing that I am not O/LI.

In the name of ALLAH.
