Reply to the nonsense response of the US
government to the postponement of
Bafana testimony

No wonder this case is Under seal, when
you see the stupidity and hypocrisy
of the US political system. (Court, Judge
lawyer, ~~prosecution~~).

The latest "crap" argument of the US
death squad is that the testimony of their
"important" Bafana cannot be

CH3

postpone because "then there would be no limit
to how long the disposition could be postponed

A but like: what does a man get to do?
A man get to do what a man get to do.

So to "help" this retarded government I suggest
that the limit will be a month after they
give me access to Abu Zubaydah and
Ramy Binalshibh.

Moreover this should also happen after I
receive the CIA file of: Hamid, Yazid
Suffaat, Muktar. All of them being
mentioned by Bafana in his ~~correspondence~~ so called
testimony.

Moreover I will challenge the admissibility
of this testimony as being no more than
a testimony obtained through coercion
and torture and threat of torture
as the [redacted] is known
of being a sophisticated deceiver.
The matter is not even represented by
a lawyer, he can be held indefinitely
if he does not "cooperate" with the US.
