UNITED SATAN CONSOLIDATED

TORTURE TO CHEAT MUST

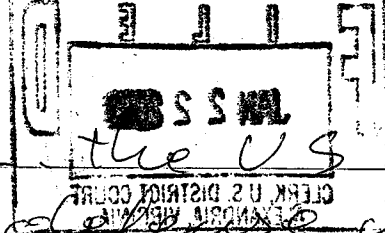

STOP

Motion to through out "substance
of any statement by the detainees"
as unreliable and obtain through
sadistic means.

NO FAITH NO LIMIT that
what characterize Leonie and her
criminal government.

Leonie Brinkema is mastering the
art of denial, this time. Very
something her biggest lie

the U.S. intended to provide the defense with the substance of any statements by the detainees at issue that may constitute Breach material.

Indeed, she is playing dumb (or naive) to accept the word of the CIA interrogators.

Even the U.S. congress warn the public that CIA personnel were professional liar.

Not only there "statement" were pure CIA fabrication but the CIA official also admit that torture is part of their sickness.

"If you don't violate someone's human right - you are not doing your job."

So become you know what you have to do to do your job.

Send me to Bagram or San Diego Torture Center for a few weeks so I come back before trial with a fully signed CIA confession.

As Downing the ex Bush Twitter
chef says:

"The interrogation of Abu
Zubaydah became me nuts at
times" severely talking about
the recklessness of what they were
doing to my brother Commander
Abu Zubaydah.

The good news is that Leonie
you will either seal my coffin
or the US constitution coffin.

As for me it is not a problem
as I came here to fight to
death.

So let the fight go on: Leonie
and don't forget:
you can lie you can cheat
but you cannot win
