On May 11, 1971, we have held a secret hearing on how to deny access [redacted]

The plan, she, the Fair Hegala and Ashcroft have come with is simple.

- First keep Bro Se Zaccarias Mansour out of the Battle field by using CIA. Classified Hearing even if we gave him copy of the so call classified Secret Information.
- Second, from Nothing [redacted] create Next to Nothing (Fair Hegala Death Stipulation). (the same for Gov Sub.)
- Third go to the Court of Appeal to confess the dumb and ugly (aka American) Fourth, Ashcroft "finally accept" as prosecutor [redacted] Death Guarantee Stipulation.
- Fifth, we have make the [redacted] Death Guarantee stipulation a Binding Judicial Admin (as of course Bro Se refuse to sign in.)

~~That's it, now you have Bro Se Zaccarias Mansour going to War to Crusader (WTC Trial) with a piece of paper with the [redacted] written on it, (not really a lucky reminder~~

for the time being as a matter of "courtesy" the Court might think useful to let me know

what are the ~~Death~~ Death Specifications
So at least for the Record, I will
have made a voluntary and knowledgeable
Rejection of your "CRAP"

Finally, Leticia Lies (universal)
when she says that I did not want to
attend May 7 Hearing on Substitution.

Indeed I wanted to attend the NON-
Classify part of an hearing on
substitution as proposed by the
Government and Done by the Court
of Appeal.

Had I wanted to come to the classify ~~part~~
was the government and the stand by
Death search made it very clear.
PRO SE STATUS TERMINATED

Moreover, anyway, after reading the
~~"undisclosed" transcript & court~~,
I can surely say that my ~~con~~ ~~read~~
on that morning was definitely more
beneficial for my Day of Judgment
than to attend your obscene party.
