Paris, October 4, 2002

Sir / Madam,

Please find enclosed an application dossier for admission into your establishment for:

**Mister Omar MOUSSAOUI, 65 years old**  
**Domiciled: La Halte Sociale 5 rue Guillaumot**  
**75012 PARIS**

Mister MOUSSAOUI was born in Morocco but has lived in France since 1966. He worked in construction until his retirement. His trade brought him to travel extensively throughout France. Mister MOUSSAOUI seems to have been wandering restlessly around Paris since 1997, at which time he was first taken in charge by the Social Medical Services (SAMU Social).

He says he has children he left and has had no contact with them for many years. He speaks very little of his past.

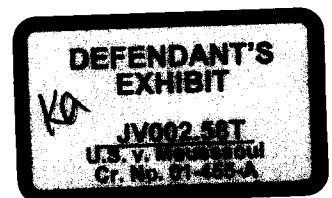

Since he has been living on the street, Mister MOUSSAOUI has slowly dissociated himself from his administrative initiatives. We are currently putting his situation in order with regard to taxes and renewing his residency card, which he had lost. Legal guardianship measures are currently being undertaken.

Mister MOUSSAOUI seems exhausted from his many years on the street and hopes to be admitted to a retirement home in order to at last find a stable way of life.

Please keep me informed of any steps taken as a result of this request.

Very truly yours,

Mrs. A BODIN  
Social Worker  
/signature/
